BODHI NEON

Lyrics Sheet

"Nothing left to reach for.
I am already here."

NOTHING MISSING

BODHI NEON

VERSE

I built a world of broken echoes
Tried to be what I'm not
Every mirror showed a stranger
Every dream left me lost

Till the silence pulled me under
And I finally could see
All I ever chased was fading
Back into me

CHORUS

Still dreaming — now I know
Nothing left to reach for
No more running, no more fear
I am already here

Through the shadows, through it all
I can hear the call
Still waking — hear me now
I am breaking out

MANTRA / BRIDGE

Buddhata — wake me now
Buddhata — here and now

FINAL CHORUS

Still waking — I am free
Nothing missing in me
No more searching in the dark
I was home from the start

Through the silence, through the pain
I return again
Still waking — hear me now
I am here... right now
