VERSE 1

I used to look at the mountain and feel so small,

Wondering how I'd ever stand up tall.

But I took a refuge in the family I found,

Planting my feet on this holy, happy ground.

We are sharing the rhythm, we are sharing wisdom.

There is nothing but sunshine and total freedom.

We are pushing the clouds right out of the view,

Living out a purpose that is strong and true!

PRE-CHORUS • DROP TO CLAPS + KICK

If you stumble, if you fall,

Just reach out your hand, 'cause we're answering the call!

CHORUS • FULL BAND RETURNS

I'm never alone in trying to make life bright!

[All] Angels and devas are on my side,

Together we are gonna make the world feel right!

(Together! Side by side!)

[All] We are gonna make the world feel right!

(Together! Side by side!)

[All] Walking in that golden light!

VERSE 2 • FUNKY MOTOWN RHYTHM

It's a high-vibration, it's a beautiful sound,

When the seekers and the believers get down!

We are lifting each other when the road gets steep,

Giving out a promise that we're going to keep.

An open heart and a helping hand,

The greatest community in the land!

I take refuge in the family I see,

Thanking the Sangha for supporting me!
