

Awakening Light

Step into a world where ancient myth meets modern sound

[VERSE 1]

In the hush before the dawn,
Shadows whisper all is gone.
Eyes once closed to all that's true,
Wander paths we never knew.

[CHORUS]

From night to knowing,
From stone to flowing,
The wheel turns slowly,
But light is showing.

[VERSE 2]

What we hold, we learn to lose,
Silent truths begin to bloom.
In the stillness, wisdom speaks—
In no place, the seeker meets.

[CHORUS]

From night to knowing,
From flame to glowing,
The void is growing,
Yet peace is showing.

[BRIDGE / CHANT SECTION]

*Gate gate, pāragate,
Pārasamgate, bodhi svāhā...*

[OUTRO]

No more hiding,
No more fear—
Through the silence,
We are near.
